2010 Education and Business Summit

Agenda At-A-Glance

The Education and Business Summit is a multi-faceted professional development, training, and informational state conference supporting all aspects of career and technology education, including a focus on whole school reform, the integration of academics and career and technical education, transitions from secondary to postsecondary education, and certificate renewal. The scope of this state-level conference (over 150 general, concurrent, and roundtable sessions) requires that delivery of content, training, professional development, and information be offered in multiple programming strands and activities. Among these are the following:

- Applied Academics/Contextual Methodology Training Support
- Awards Programs
- Business and Industry Partnerships Presentations
- Career and Technology Centers That Work
- Career and Technology Education Program-Specific Training Sessions
- Career Guidance and Counseling Sessions
- Career Specialists Activities Training Sessions
